NAVIKEY

"SEVEN WAYS"
NAVIGATION SYSTEM

ENGLISH VERSION
1.0 RC4

QUICK*
USER GUIDE

⚠ **Attention!**
The quality and accuracy of navigation depends on the quality of maps.

MAPS INSTALLING

When you first load the program - it has no maps.
1. Load the required maps from the site: www.megamaps.org
2. Unpack and copy the map to a folder
       7ways \ maps
3. In the program, select the map in "menu / options / map".
4. Use the address, or visual search to positioning the map on the screen, or wait coordinates.

* Download detailed instructions from www.navikey.ru

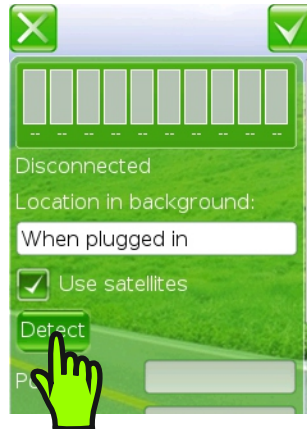

GPS SETTINGS

When you first run the programm you need perform the setup of equipment. go to the

MENU / OPTIONS / SATELLITES

and click "Autoconfiguration." The program will search for the connection. The window displays the status of satellites and signal levels.

Disconnected
Location in background:
When plugged in
✓ Use satellites
Detect

⚠ **Attention!**
In the first time to determine location can be too long.

This is due to the fact that the receiver updates the almanac (list of orbits of satellites for the next 7 days).
For fast positioning - preferably be in the one place (not moving) in the open.
Also, the weather and clean sky influence to rate of receipt of the almanac .
Later, with the regular use navigation, the almanac will be updated constantly and waiting time will be minimal.

SEARCH

Search is one of the most important features of the program. It is designed to search for items on the address, the name, the coordinates. You can also search for your places in the "my place". "What`s near" allows to search for objects that are around you.

Address search

Consistently enter data into the address fields and press the "OK" button in the upper right corner. The program will go to the map and show the desired object in the center of the screen, found objects highlighted with another color.

TRINIDAD & TOBAGO...
Carenage
Street
House

⚠ Attention! If the address search returned no results - use the places search

Places search

Enter the name of desired object or select it from the the list and click "OK". You can also choose object in the group by clicking the button corresponding the group.
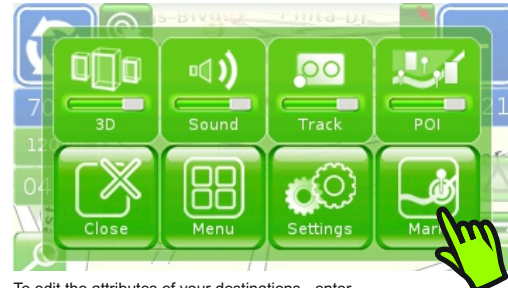

✓ Along route
Fuel Shop Service
Cafe ATM Other

Use the "nearest destinations" to see all the objects around your location. If you know the coordinates of object you can search by coordinates. All the objects you search for are saved in the history.

ROUTS

KThe result of the search can be a route. Click route in the top right corner of the screen. For more control over routing - press set routes button

After the route - follow the voice of the program for the goal.
